Sagawa Global Logistics Co., Ltd. (H.O. Shinagawa-Ku, Tokyo. President: Hideo Araki), a member of the SG Holdings Group, has commenced full operations of Fukuoka Logistics Center, Fukuoka Prefecture, on which construction was started in August of 2008.

This facility brings the nationwide total of logistics centers operated by Sagawa Global Logistics to 54 (2 in Kyushu), with a total floor space of 810,000m<sup>2</sup>.

Located in the Kyushu gateway to Asia, close to Fukuoka Airport, Fukuoka Interchange & Hakata Port, this Logistics Center is ideally situated to provide high quality comprehensive logistics services for imports, exports and domestic distribution.

With enough direct access vehicle berths for twenty 10t trucks, warehouse load bearing weights of 1.5t per square meter, and a useable height of 5.5meters, this facility provides for numerous storage functions and efficient operations. Additionally, with full air-conditioning (2<sup>nd</sup> – 4<sup>th</sup> floors) and lighting levels at 300 LUX, we can provide high quality logistics services, by offering value added services, including logistics processing, alongside basic storage and inventory control.

The facility also includes designated office spaces, for the added convenience of our clients. Also, combining this convenience with the necessity to prevent unauthorized access, vein identification security entry systems have been installed throughout the building.

Sagawa Global Logistics can provide various logistics services to meet all of our clients needs, from logistics processing; import and export operations and customs clearance procedures, through to air transportation services and truck transportation utilizing the Sagawa Express network.
